*MESSAGE to the **VOTERS***

Dear APPNA members

I am requesting your support to get me elected for your next Treasurer to allow me to serve you as I have a long track record of service to various charitable organizations. Having served a large chapter like PPS as its President and the largest alumnus DOGANA as its Treasurer, I consider myself in a well-placed position to lead APPNA. As a Healthcare executive of my busy practice for several years, I will bring my precious experience to meet challenges associated with expanding the network of newer projects and increasing the size of the membership. As a Treasurer, my vision is to explore new avenues to bring more and more capital via sponsorship & donations as well as maintain our donor's confidence by keeping a straightforward and transparent system of Association accounts. I am also planning to learn from and replicate the financial model adopted by other successful professional and non-profit organizations. My priority would also be to work with the President and Executive committee in an effective manner to allocate sufficient funds for local charitable projects so that we as Americans of Pakistani descent give back to our adopted land and present the best image of our community. I will also maintain a close relation with the Accountant & Central office to ensure timely filing of taxes in compliance with State regulations.

--Looking forward to serving you as your next Treasurer in the year 2018--
