

Continuing Medical Education for Licensure Reregistration

The majority of boards require continuing medical education (CME) for license reregistration (Table 21). Some states also mandate CME content, such as HIV/AIDS, risk management, or end of life palliative care. In addition, many states also require that a certain percentage of CME be *AMA PRA Category 1 Credit™* or equivalent. About two thirds of states accept the AMA PRA certificate or application as equivalent for purposes of licensure reregistration. Some states also accept certificates/awards of the American Osteopathic Association, American Board of Medical Specialties, a state medical society, and a national specialty society, as well as completion of graduate medical education residency/fellowship programs.

Additional Notes for Specific Licensing Jurisdictions

California MD and DO—All general internists and family physicians who have a patient population of which more than 25% are 65 years of age or older must complete at least 20 hours of mandatory CME in geriatric medicine or the care of older patients.

All physicians and surgeons (except pathologists and radiologists) must complete mandatory CME in the subjects of pain management and the treatment of terminally ill and dying patients (one-time requirement of 12 credits). Physicians must complete this requirement by their second license renewal date or within four years, whichever comes first.

Florida MD—*First time license renewal*: one hour HIV/AIDS, two hours in prevention of medical errors. *Second and subsequent renewals*: forty hours, including two hours in prevention of medical errors. *Every third renewal*: forty hours, including two hours in prevention of medical errors and two hours in domestic violence CME. *Note*: End-of-life care and palliative care can no longer be completed in lieu of HIV/AIDS or domestic violence courses.

All CME must be *AMA PRA Category 1 Credit™*, except for domestic violence and prevention of medical errors. Domestic violence and prevention of medical errors courses offered by any state or federal government agency or professional association, including any provider of *AMA PRA Category 1 Credit™*, are acceptable.

Florida DO—*First time license renewal*: Forty hours, including one hour HIV/AIDS, professional and medical ethics, Florida laws and rules, controlled substances; two hours domestic violence and prevention of medical errors. Of the remaining required hours, at least 20 must be AOA Category

1-A. *Second and subsequent renewals*: one hour each in professional and medical ethics, Florida laws and rules, and controlled substances; two hours in prevention of medical errors. *Every third renewal*: two hours of domestic violence. *For each license renewal*: Of the remaining required hours, at least 20 must be AOA Category 1-A; all other hours (including those in the required content categories) can be either *AMA PRA Category 1 Credit™* or AOA Category 1-A credit.

CME on professional and medical ethics, Florida laws and rules, controlled substances, and prevention of medical errors must be obtained by completing live, participatory attendance courses.

Hawaii—The information for the CME requirements for physician license renewal were obtained from the Hawaii Medical Board website at http://hawaii.gov/dcca/pvl/boards/medical/education_information/pvl_medical_physician.pdf.

Iowa—Licensure renewal fee waived for physicians on active duty (full-time training or active service) in the U.S. armed forces, reserves or national guard during their renewal period.

Kansas—Requirement is 50 credits in 18 months (20 Category 1), or 100 credits in 30 months (30 Category 1), or 150 credits in 42 months (60 Category 1).

Maryland—Partial CME credit is offered for ABMS certification, select peer review, serving as an intervenor or monitor on a physician rehabilitation committee or professional committee, and serving as a preceptor for resident physicians or medical students. For first license renewal, the CME requirement is waived, but the licensee must have completed an approved orientation program.

Missouri—The CME license renewal requirement can be met by a) completing 50 hours *AMA PRA Category 1 Credits™*, AOA Category 1-A or 2-A credits, or American Academy of Family Physicians prescribed credits; b) completing 40 hours of *AMA PRA Category 1 Credit™* or AOA Category 1-A credit if each course, seminar, or

New Jersey—The six credits for cultural competence are in addition to the 100-hour requirement for physicians licensed prior to 3/24/05; these credits may be included if licensed after this date. For more information, see: www.njconsumeraffairs.gov/bme/press/cultural.htm.

For newly licensed physicians, the Board requires attendance at an orientation program; no CME is given for this.

Oregon—Additional one-hour pain management course specific to Oregon provided by the pain management commission of DHS. Additionally, licensees in residency training and those serving in the military (and deployed outside Oregon for 90 days or more) are exempt from the CME requirement.

Vermont—Of the 30 required credits, at least 1 hour must be on hospice, palliative care, and/or pain management services. In addition, for each licensee who has or has applied for a DEA number, at least 1 hour must be on safe and effective prescribing of controlled substances.

Washington MD—The board classifies CME into five different categories. A candidate for relicensure may earn all 200 required hours every four years in Category 1; a maximum of 80 hours may be earned in any of the other four categories. See: www.doh.wa.gov/Portals/1/Documents/3000/657-128.pdf
