APPNA STRATEGY MEETING 2018
KEMCAANA ANNUAL RETREAT
APPNA SOUTH FLORIDA BANQUET

January 25-28, 2018
Hyatt Regency, Miami, Florida
I want to personally thank each one of you for attending APPNA Strategy Meeting. Thank you so very much. This Strategy Meeting is one of its kind, where the entire plan for the year is laid down in front of the Membership, through you. This meeting was live casted so that the proceedings could reach out to every member and potential member at home.

When we started the discussion about having the event in South Florida, Miami was the obvious choice. At this time of the year, you would not have been able to find any place better than Miami to spend a weekend with your family and friends. Cozy temperatures, warm waters, white beaches, multi-ethnic food, South Beach, Art Deco- I am confident that you all are having a good time.

With leadership comes responsibility- the responsibility of being transparent and keeping APPNA first. Right from day one, I have been trying my level best to bring APPNA together, and to create a level playing field, while enhancing the positive image of our organization among members and non-members alike.

Aside from routine work, my goal is to reach out to you as your President to elaborate on issues that we, as the Executive Committee, are pursuing. Most of the issues and projects were discussed here during the Strategy Meeting in Miami. Your active participation and words of support will go a long way for our Executive Committee to perform at the very best.

In the end, I would like to thank the event chair - Dr. Saqib Masroor, the President of Kemcaana - Dr. Mian Ahmed Hasan, and the President of the South Florida chapter - Dr. Iqbal Ismail, for coming together and co-hosting this great event. Along with them, Mr. Amin Markatia, Mr. Amin Naviwala, Dr. Zafar Qureshi and Dr. Unser Khan have been the most energetic members of the host committee.

Thank you
Iqbal Zafar Hamid, MD
President APPNA 2018
President KEMCAANA’s Message

My dear friends and colleagues:

I would like to start this note by thanking you all for undertaking this journey to Miami to attend the KEMCAANA retreat. I hope you are enjoying the weather here and have a delightful stay.

We will start the festivities on Thursday evening with the KEMCAANA Baithak. It will be a casual event where you will have an opportunity to walk down memory lane with others and reminisce about your times at KE. I encourage you to participate by relating an anecdote, telling a story, reciting poetry or singing a song. It will be an open forum as long as we do not discuss politics or religion.

On Friday Morning KEMCAANA executive council meeting will be held between 10-12. It will be open for all KEMCAANA members to attend. A general body meeting will be held later from 1-4. In the evening the yacht for the KEMCAANA Dinner cruise will leave the hotel at 6:30.

In the end I would like to thank Dr. Saqib Masroor, the chair of the host committee for the tremendous effort he made to make this event spectacular. I would like to thank APPNA president Dr. Iqbal Zafar Hamid for generously agreeing to give half the proceeds for this meeting to KEMCAANA. I also want to thank Dr. Mohammad Iqbal Ismail, President of the APPNA South Florida, for his cooperation and diligence in working together with KEMCAANA on this retreat. Again I hope you have a great trip. If I can be of any further assistance, please let me know.

With best regards,
Mian Ahmed Hasan, MD
President KEMCAANA 2018
President APPNA South Florida Chapter Message

APPNA Friends & Families:

On behalf of the APPNA South Florida Chapter, I would like to welcome you all to the APPNA Strategy Meeting 2018, KEMCAANA Annual Retreat and the APPNA South Florida Annual Banquet.

It is an honor to serve as your APPNA South Florida President for the 2017-2018 year. I am deeply moved by all your support and would like to thank you all for the confidence you have instilled in me. The accomplishments of the APPNA South Florida team have been the results of the efforts put forth by my executive team, the APPNA South Florida members, and the support of South Florida's Pakistani community at large.

Over the past year, we have been working on several key initiatives for which we have set measurable goals. These initiatives included: providing basic healthcare to the needy, getting the local Pakistani community involved in APPNA projects and events, and making APPNA resources available throughout the South Florida region. The following events and accomplishments showcase the APPNA South Florida activities in 2017.

- Strike For Cure, APPNA Annual Bowling Day
- APPNA Annual Eid Dinner and Musical Night
- Inauguration of PAK-American APPNA Free Clinic and Receipt of 501(c)(3) Non-Profit Status
- APPNA National Healthcare Day, including the Free Adult Flu Vaccination Clinic
- Participation in the Unity Day Dinner with the Indian, Pakistani and Bangladeshi Physician Communities, where the APPNA South Florida Leadership was recognized by the Indian Physicians of Florida

Despite all that we have achieved, there is still much work to be done. APPNA South Florida has several initiatives underway, including plans to implement an APPNA Mobile Clinic in South Florida, fund an APPNA South Florida-sponsored TCF school in Pakistan and to purchase land for the PAK-American APPNA Free Clinic.

Finally, I would like to extend my gratitude to the current APPNA President Dr. Iqbal Zafar Hamid for his continued support and guidance. I would also like to thank the APPNA South Florida team including: past President Dr. Mian Ahmed Hasan, Secretary Dr. Saqib Masroor, Treasurer and Medical Director Dr. Zafar Qureshi, the President of APPNA PAK-American Clinic Dr. Unser Khan, Secretary of the APPNA PAK-American Clinic Mr. Amin Markatia, and Mr. Amin Naviwala for their commendable work. Thank you all for your support for the APPNA cause and for making these goals a reality.

Best Regards,
Muhammad Iqbal Ismail, MD
President APPNA South Florida
Dear APPNA and KEMCAANA Family,

It is a great privilege to have been nominated by the President of APPNA Dr. Iqbal Zafar Hamid and the President of KEMCAANA Dr. Mian Ahmed Hasan to be the chair of the host committee. If you have a good time, I will be happy to receive your thanks and if not, you only have the two presidents to blame for picking the wrong guy.

This has been a record cold winter in the US. Miami continues to be the place to be to beat that cold. We are fortunate to have white sandy beaches, exemplary international cuisine, a diverse yet primarily Latin population with its colorful heritage and culture that gives this city the unique party flavor.

But above all, we have a thriving Pakistani community including public servants, engineers, lawyers, physicians etc. who love to party “desi style.” The entertainment program of this occasion reflects this reality. The Friday night KEMCAANA party on the yacht would have a non-structured format with people encouraged to move about, mix and mingle, enjoy live music on the second floor or DJ on the third floor or simply lounge around on the first floor. Of course, the top of the yacht is the open air where you can enjoy the sea breeze.

Saturday is the Annual Banquet of the South Florida Chapter of APPNA with a more formal feel to it. However, we have a great entertainer from Pakistan, Komal Rizvi, who will keep you all on your toes. We also request you to visit the exhibitors at least once, (Pharmaceutical Industry booths included) so they are encouraged to continue their support.

Last but not the least, money raised from this event will go a long way in supporting many philanthropic activities of both the APPNA South Florida as well as KEMCAANA, such as the APPNA-SF Mobile Free Clinic and KEMCAANA Poor Patient Medicine Fund to name just a couple. So, open your hearts and support these charitable projects as much as possible.

Thanks to my team for the hard work they have done to make this event a great success.

Sincerely
Saqib Masroor, MD
Chair Host Committee
Editor’s Message

It was a great sense of pride and service to be nominated as Chair of the Publication section of this meeting. Thank you, Dr. Iqbal Zafar Hamid, President, APPNA, Dr. M. Iqbal Ismail, President APPNA-South Florida, Dr. Mian Ahmed Hasan, President KEMCAANA and Dr. Saqib Masroor, Chair, 2017 Strategy Meeting and all others for entrusting me in putting this publication together.

I would like to thank Mr. Laiq Siddiqui, CEO, V4IDEAS Inc., working with the APPNA team, who has given final shape to this journal. We would be lost without his wisdom and help.

I have worked on this project motivated by the fact that the Strategy Meeting will bring together APPNA members, APPNA council members, and a diverse group of people from our community. We will present ideas, discuss strategies and come together to delineate a path that APPNA can follow this year and beyond. It will be a dynamic plan that will evolve with the changing requirements of the times. I hope this meeting streamlines and accelerates all the projects APPNA supports, and provide shape to the proposals by our new president and executive committee.

While trying to continue the excellent precedents set by my predecessors in Journal publications I hope you find this issue informative, educational and pleasant.

Thank you for your interest.

Unser Khan, MD
Chair Publication Committee
Thank you so very much for coming to Miami and attending this one of its kind of Strategy meeting. The plan for the whole year will be presented to the APPNA Membership through you. This meeting is live-casted so the proceedings can reach out to every member and potential member sitting at home. I want to thank Dr. Saqib Masroor, event chair, Dr. Mian Ahmed Hasan, President Kemcaana and Dr. Iqbal Ismail, President South Florida chapter for coming together and co-hosting this great event.

History:
Over the past four years, as a member of the Executive Committee, I have come across hundreds of members and potential members who showed dissatisfaction on how the organization is functioning and where it is heading.

Today on January 27, 2018, as the President of APPNA, I am unveiling an initiative and asking all the committees to work with the Long Range Planning Committee. The announcement is presented to the attendees at APPNA Strategy Meeting 2018 in Miami.

Name of initiative: Vision 2023

Objective:
Analyze APPNA's business model, assess its viability to sustain the association for the next 5 years and beyond, and recommend adjustments to the Executive Committee.

Goal:
Implement changes to APPNA's business model that streamline the organization, protect and strengthen APPNA's core functions, enhance the value of APPNA membership, and support sensible growth of APPNA's aims and objectives.

Implementation:
The committees have already started planning the changes and will further proceed as per recommendations.

Structure & Directions:
The Long range planning committee will be working on a fast pace to study the recommendations and send them to the EC. The EC will choose to adopt the recommendations or proceed on its current objectives.

Strategic Assessment:
A benchmark will be created for all the committees and a full report will be presented in Spring Council meeting.

Continued on next page....
Defining specific steps:
1. I wanted to reach out to you as your President to elaborate on issues that we as Executive Committee are pursuing. Most of the issues/projects will be discussed here during Strategy meeting in Miami. Your active participation and a word of support will go a long way for our Executive Committee to perform at the very best level.

2. Executive Committee is having regular meetings and communication to take care of the organizational matters

3. Emphasis is being given to our theme of the year Healthcare, Education, Advocacy, Philanthropy and Young Physicians. This is what we do best, and we should continue to focus on it.

4. Job description evaluated for our Office workers and a position for Coordinator of projects is being created

5. Office infra structure is evaluated for upgrade and improvements.

6. Working to clarify certain ambiguous provisions in our bylaws.

7. Working on our bylaws remove any ambiguity and giving every member an equal opportunity to serve the organization on a level playing field.

8. Working to create an environment of added camaraderie by bringing APPNA members together.

9. Tangible projects such as a Medical University and Mobile Health Clinics in Pakistan and USA are actively sought.

10. Transparency, a level playing field and communication with Membership are the goals of the year.

11. Committees are structured in groups with a Coordinator appointment to organize APPNA’s effort in Healthcare and education.

12. Every Committee will work independently as usual with a benchmark in sight.

13. Membership benefits are being added to provide value for the membership.

14. Young professionals and young physicians are courted to become part of mainstream APPNA...

15. Women and minority empowerment and involvement is actively sought.

16. Media and communication committee is working to enhance APPNA’s image through different advertising mediums and a proper Media code of conduct.

17. Flawless online creation of modules is worked in for our members to coordinate their philanthropic and educational activities.

18. Advocacy is working to help our members to become part of mainstream political arena.

19. More projects will be added in the agenda as the discussions go on and a decision is made with mutual consensus.
Dear KEMCOLIANS,

I worked with an energized group of KEMCAANA leadership in our executive committee and am extremely grateful to each one of them who worked hard and sincerely. Our goal in 2017 was to improve the governance of our organization.

1. Our first task was to make our KEMAANA website functional and secure. In 2016 it had become affected by the multiple viruses.

2. Dr. Arif Toor assumed the role of Volunteer Executive Director. We are extremely grateful for his spirit of voluntarism and devoted services to KEMCAANA.

3. We held 4 national KEMCAANA meetings, which included a strategic spring meeting, summer general body meeting, fall meeting and winter KEMCAANA Symposium. We kept the membership informed by sending regular Spotlight newsletters about KEMCAANA activities and projects throughout the year.

4. Our membership has increased from 460 to greater than 490 in 2017.

5. We successfully conducted 2018 election by an electronic voting system for the first time in KEMCAANA history.

6. Thanks to our treasurer, Dr. Asif Masood, we created clear procedures for finances to make them streamlined and our budget balanced.

7. We asked APPNA to look at fair distribution of profits to component alumni associations from Alumni night banquet. This year KEMCAANA received 3 times as much as the year before for the summer meeting revenues.

8. KEMCAANA has ended the year in a positive financial balance. We had positive revenues from both the KEMCAANA retreat and the summer meeting. There was a successful fundraiser during the annual Banquet, thanks to the effort of Dr. Mufiz Chauhan, Dr. Mohammed Haseeb and Dr. Mohammad Jahanzeb. In 2017, we raised funds for scholarships, indigent patient medication program, KEMCAANA house, KEMU Anatomy Learning Center and Young Investigator Award.

9. The Constitution and By-laws committee worked hard throughout the year to bring the KEMCAANA By-Laws in line with APPNA. The roles of the officers, the working of KEMCAANA committees, making important committees like
scholarship and the welfare committees as standing committees, updating the election process, streamlining the transition to the new EC and developing the KEMCAANA chapters were all included.

10. The KEMU Anatomy Learning Center (a project of KE Class 1980) was upgraded this year with 13 new computer stations and monitors in its newly reconstructed location in the anatomy department.

11. We had a successful KEMCAANA Winter/KEMU’s 37 Annual Scientific Symposium that was held on Dec 20, 2017.

**KEMCAANA’s on-going projects include:**
- Scholarships: 100 Thanks scholarships of Rs.2000/month; 54 Endowed undergraduate scholarships of Rs.4000/month and 10 undergraduate Adopt-a-Student scholarship of Rs.4000/month; Post graduate scholarships and loans of $49,000 were distributed to 9 outstanding young physicians

- KEMCAANA House in Philadelphia: The newly renovated KEMCAANA house is now open to women physicians. About 50 young physicians have used the house including 8 women in 2017. These young physicians were invited to attend the Strategic Meeting and APPNAPUN annual meeting under the leadership of Dr. Jamil Mohsin.

- Young investigators award: Dr. Rizwan Ahmed was the recipient in 2017.

- Long-distance research training & mentorship programs: Dr. Rehan Qayyum has been holding these popular sessions regularly with junior faculty at KEMU.

- Radiology technician training program: Organized by Dr. Sarwat Hussain.

- Visiting faculty program: Coordinated by Dr. Ayesha Najib

- Hepatitis C awareness and education program: Lead by Dr. Maqbool Arshad

- Computer lab at KEMU with free internet access across KEMU/ Mayo Hospital: Lab has been renovated and includes a fully equipped Seminar room for video conferencing and webcasted lectures.

- Indigent Patient Free medicine program: Organized by Dr. Ahmed Mehdi Malik and Dr. Ali Hashmi, thousands of dollars worth of medications have been supplied to indigent patients at Mayo.

All these KEMCAANA projects are true to our mission of education, research and service and need to be continued through perpetuity as a Sadqa-e-Jaria. I look forward to working with Dr. Mian Ahmed Hasan with the new Executive committee and serving the organization in years to come.

G. Naheed Usmani, MD
President KEMCAANA 2017
Due to rise in the problem of opioid overdose and deaths related to it, APPNA is starting Hometown Community Project (HTCP) under Adhoc committee chair leadership Maqsood Ahmed. HTCP seeks to address and help in the prevention and treatment of addiction, a public health crisis all across America. The Hometown Community Project is a community-based model striving to raise awareness of the substance abuse issues facing our nation educating and employing the public and private sectors in prevention and treatment through model implementation-lessening the impact drugs and alcohol have on our communities. The project includes several components such as public awareness, community activation and education, coalition building, addiction treatment, provider education, patient support and research. We will partner with several individuals and organizations including local hospitals, health departments, primary care physicians, pharmacists, faith-based community programs/churches, law enforcement and social services. HTCP advances physicians leadership interests in legislative, regulatory, and public affairs. Through advocacy, education, and innovation.

A shared APPNA and HTCP mission is to save lives by preventing injuries and deaths at work, in home and communities, and on the roads through leadership, research, education, and advocacy.

APPNA seeks to address the U.S. opioid epidemic by engaging policy makers, public health leaders, chronic pain and addiction specialists, individuals in and seeking recovery and family members, so that legislation and policies get the support needed.

Let's all work together to eliminate this evil from our society and make our communities healthier and safer.

Learn more at www.hometowncp.org. Finally, we build healthy communities, advocating for greater understanding and more effective programs to treat the disease of addiction.

Dear APPNA members, we are looking for physicians who are interested in helping their community through strong leadership skills require for this project.

Please contact Dr. Maqsood Ahmed through email drahmed.renusoft@gmail.com

Introduction of Leadership of AAPI and BMANA
Questions & Answers (40 minutes)

ZT Wealth Seminar 5:30-6pm
The South Florida community of physicians and their friends had been discussing public service projects for a long time. During a General Body Meeting in 2014 ideas were invited by Dr. Mian Ahmed Hasan. Suggestions included gifts for children in hospital, support for law enforcement, community education lectures, health clinics in Mosques and Churches. An ongoing request from some members had been to establish a Free Health Clinic under APPNA-South Florida leadership but involving the community at large.

At our later meetings between myself, Dr.Hasan, Dr. Zafar Qureshi and Dr. I Zafar Hamid we laid down a plan to recruit people in our community who were willing to donate time and/or funds to make a Free Clinic possible. We researched numerous State and Federal regulations regarding free clinics, visited other Free Clinics in the area, discussed the project with County Health officials, accountants, attorneys, and realtors.

Following those meeting, a working group started the process of obtaining the necessary legal and commercial framework. A web presence was established. County and State certificates and Sovereign Immunity for our volunteers was completed without a hitch because of the outstanding quality of medical professionals in our community.

As of August 2017, all necessary requirements have been met and we have officially started operations at a temporary office donated by Dr. Zafar Qureshi. Since then the Free Clinic have been operating on a part time basis and is meeting current patient volume demands.

Recently we advertised in Asia Times and through posters in stores and places of religious worship invited patients regardless of race, religion or national origin using multiple languages. As more volunteer physicians and nurses sign on we will be more than ready to meet expanded patient demand.

The Clinic has achieved all this with the support of the community and the hard work of volunteers. It is very well received and appreciated by all. We have also celebrated APPNA National Healthcare Day 2017 at the clinic with free health checkups and free Flu vaccines.

As we grow, and our funding increases, we plan to purchase an independent office, go full time, 6-7 days a week and invite local Medical Schools to use our facility for training Medical Students and young physicians. In the next few years we may be qualify to sponsor a J-1 waiver position for Foreign Medical Graduates.

We are keeping all records and maintaining quality so that as we become busy, in 2 years we hope to apply as a Federally Qualified Health Center (FQHC). By receiving federal funds, we will be able to provide greatly expanded services to needy patients by employing physicians and nurses instead of relying only on volunteers.

Thank you for your interest. Please visit appnaclinc.com for details or to contribute.

**Vaccinations**

Vaccinations are some of the most important tools available for preventing disease. Vaccinations not only protect children from developing a potentially serious disease but also protect the community by reducing the spread of infectious disease.

The flu is a contagious respiratory illness caused by influenza viruses. It can cause mild to severe illness, and at times can lead to death. The best way to prevent the flu is by getting a flu vaccination each year. Don't travel abroad without ensuring that you've had the right vaccinations.

We provide many different kinds of vaccinations - ASK US TODAY!

ZT CORPORATE ANNOUNCES MAJOR REBRAND

A new company logo and name change from ZT Wealth to ZT Corporate mark the beginning of a new era of ZT. The rebrand looks at the future of the business and reflects ZT’s rapid expansion. After more than 20 years of success, the ultimate development of ZT Corporate will encompass the same devotion to providing the best services to clients through unique opportunities ranging from finances to healthcare.

“As we embark on a new corporate journey, we keep in mind our commitment to our community, the city of Houston, and remain leaders of influence.”

TASEER BADAR 
CHAIRMAN & CEO OF ZT CORPORATE GROUP OF COMPANIES
