

As your secretary pleased to share lot of good things have happened this year, the most profitable and well attended meetings with record attendance and record profits have been recorded. Our philanthropic work has made immense growth. There are many conflicts including the new litigation culture that have surrounded the association, which were known for years in the association have come to mainstream and are being openly debated good and bad - while as APPNA is redefining itself thru the democratic processes I continue to dream for NAYA APPNA ! beyond partisan politics, ethnicity, nepotism with minority empowerment, including Women, beyond alumni lines and zero tolerance for frivolous lawsuits and protection to all APPNA officers and members who work for APPNA. I reject closed door politics and back door deals! Wish for open decision making process with membership be informed and be part of every decision making process. We need to go beyond group politics and I reject that in APPNA. I am for removal of the controversial disciplinary clause in Amendments 16.1.8. You will see me as a pillar strengthening all of this! I continue to work on these at front lobby, back lobby and at every level, while staying with in the frame work of the constitution of APPNA. I see a much better future and improved APPNA.

M Sohail Khan MD  
Secretary APPNA 2018
