

It will be an honor for me to present myself as a candidate for APPNA BOT from Northeast region. I am a Graduate of Dow Medical College from 1989. During my college life I was elected as CR in 1<sup>st</sup> year from the last election of DMCSU in 1983. Although, my official tenure lasted for less than 6 months as Unions were banned, but due to my social skills and friendly nature, my class fellows let me work as a Class Representative till my graduation for a period of more than 7 years. I was respected and supported by all of my opponents and that summarizes my personality. I played the central and initial role in reversing the backlog of 7yrs graduation with help of my colleagues and Prof Almani who was our Principal at that time. My class fellows still call me as CR. I am a lifetime member of APPNA since 2013.

I had the privilege to serve DOGANA in different positions for several years and became President of the Alumni in 2016. My nature is always to avoid conflicts and bring unity. I feel that I will serve to improve the image of the organization.

At present, I live in Allentown, PA. I am Family Medicine Physician with specialization in Geriatric Medicine. My wife is a Pediatrician and graduated from Sindh Medical College. In Allentown area I serve my community as President of Muslim Association and actively involved in Local and National Politics as being Board member for Emgage. I also represent my County in Pennsylvania Medical Society. I feel confident that with my experience and friendly nature, I will be serving to the best of my abilities in APPNA as BOT.

I hope I will be given this opportunity by the members of APPNA from North East Region.
