

Personal Statement

I am honored to have the opportunity to be nominated for a position on the APPNA Central Board of Trustees. I have served both APPNA Central and APPNA-DMV since my residency days in 1995. I have chaired multiple central APPNA summer meetings as well as served on multiple conference host committees. I have also served on various APPNA committees over the years. I feel I have been a very productive member of this important organization.

With all of the above experience, I feel I have tremendous insight into APPNA's mission and goals. I feel I certainly have the leadership to serve as a guide and advisor for the organization, protecting its values and core principles.

APPNA has gone through some turbulence in the last couple of years, but I always feel that good follows difficulty. That is my optimism for the future. The struggle that APPNA has gone through recently will result in great rewards going forward. And it is to that end, I wish to contribute with my years of experience. Thank you for this wonderful opportunity.

Sincerely,

Hameed Peracha, MD
APPNA Central Lifetime Member
APPNA DMV Lifetime Member
