

### MESSAGE:

I have joined the Association of Physicians of Pakistani Descent since more than two decade. My passion has been to serve APPNA community in particular and our community in US and Pakistan in general.

I feel very proud as Life time member of most democratic organization of Pakistani Descent.

I have served SMCAANA and APPNA as a foot soldier, as elected official, as member and chair of APPNA standing committees over the years. I feel very satisfied by establishing a good block of almost 2000 Life time APPNA membership. My passion as a BOT member is to increase APPNA membership as big as possible. Make APPNA an inclusive organization so all Pakistani Physicians of different religion, group of thought can join APPNA.
